# More Young People Getting Cancer — What's Behind the New 'Public Health Crisis'?

*Dr. Pierre Kory and journalist Mary Beth Pfeiffer on Tuesday published their fourth op-ed on excess deaths in young people. They called for an investigation of COVID-19 pandemic policies — including mRNA vaccination mandates and lockdowns — and their aftermath.*

By Suzanne Burdick, Ph.D.

Catherine, Princess of Wales, who on March 22 announced she has cancer, "is part of an unfortunate new trend of more and younger cancer cases," according to Dr. Pierre Kory and journalist Mary Beth Pfeiffer.

Kory and Pfeiffer addressed Princess Catherine's diagnosis in an op-ed published Tuesday in The Washington Times, in which they said there's evidence suggesting that the marked increase in cancers among young people may be linked to COVID-19 mRNA vaccines and pandemic policies, such as lockdowns and vaccine mandates.

"We are facing an emerging toll of illness and death in the young," they wrote. "We cannot shrink from asking what is causing it."

Kory — president and chief medical officer of the Frontline COVID-19 Critical Care Alliance — told The Defender that early-onset cancer and excess deaths are "poised to become the next public health crises that our medical system is not equipped to manage."

This latest op-ed is Kory and Pfeiffer's fourth. Their three prior op-eds — which appeared in USA Today, Newsweek and The Hill — also called attention to excess mortality and disability rate spikes occurring after the global COVID-19 vaccine campaign.

"Our intention for writing the op-eds is to raise the profile of this important issue to prepare for a future crisis and advance the conversation on possible causes and treatments," Kory said.

In their latest op-ed, Kory and Pfeiffer said an "unthinkable twist" in cancer rates is occurring and it has garnered the attention of the American Cancer Society, Yale Medicine and the Harvard Gazette.

According to the American Cancer Society's 2024 report, about 2 million people in the U.S. will develop malignancies this year — and a larger share of the more than 600,000 who are estimated to die will be younger than before.

## CDC data show 'red flags'

Kory and Pfeiffer cited cancer death records through 2023 from the Centers for Disease Control and Prevention (CDC) that included data two years beyond what was in the American Cancer Society report.

"The later data, which is provisional," they wrote, "shows a cancer pattern that appears to have gone from slow simmer to rapid boil in the heat of a pandemic."

They found that cancer deaths across all ages rose by 2% from pre-pandemic 2019 to 2023 — and in people 15-44 years old, cancer-related mortality rose at double that rate.

"Why is this happening now?" Kory and Pfeiffer asked. "Moreover, what will be done to address it?"

They saw additional "red flags" in the CDC data including:

- Deaths from colorectal cancer rose 17% among people ages 15-44 in 2019-2023 — 4 times the population-wide increase.
- Uterine cancer deaths rose 37% among people ages 25-44 from 2019-2023, and 15% overall.
- There were much larger increases, from 2019-2022, in liver and pancreatic cancer mortality in young adults than in the overall population.

The U.S. Society of Actuaries also reported 76% and 101% increases in death claims among insured workers ages 25-34 and 35-44. "COVID-19 was ruled out as the cause," Kory and Pfeiffer said.

The public needs to explore the role of lockdowns, top-down treatment protocols and vaccines that were often mandated as a condition of employment, they said.

"By top-down treatment protocols," Kory told The Defender, "I'm referring to how the public health and medical authorities made edicts on treatments that had to be followed and could not be questioned without consequence."

"These same authorities were not open to understanding the novel treatments showing promise on the frontlines and instead allowed information to flow only one way — from the top down," he said.

## 'Just a tragic coincidence?'

In a March 27 Substack post about the data exposed in the op-ed, Kory said he and Pfeiffer compiled and interpreted these and other data from government and professional society sources after "bearing witness to so much medical carnage."

"Just a few weeks ago," he said, "a 20-year-old patient of mine died of glioblastoma."

He added:

> "If that is not tragic enough, her parents told me that a 20 year-old man in her college friend group had died of the same a few weeks earlier. Unsurprisingly, their university had a vaccine mandate.
>
> "Just a tragic coincidence right?"

But reviewing cancer facts and figures has convinced Kory that such cases aren't just a coincidence.

"We believe that the data strongly if not definitively implicates the COVID mRNA vaccine as the most proximate cause."

**Hopefully CHD will Join this Legal Action?**
***BREAKING* 'Sharing Is Caring'***
**"Is Justice Coming For Victims of COVID Wrongful Deaths?"**

Such justice soon may be coming due in large part to the dedicated efforts of two attorneys in Florida (working pro bono) to thoroughly research the criminal codes of 25 states to identify crimes committed by various high-level officials and organizations prior to and during the COVID-19 pandemic.

One of the attorneys, a former prosecutor, prepared extensive legal briefs (documenting strong evidence of crimes) that have been submitted to the attorneys general of Texas and Florida—the brief was subsequently filed with the Florida Department of Law Enforcement.

**Anthony Fauci**, ex-Director, National Institute of Allergy and Infectious Diseases
**Cliff Lane**, Deputy Director, National Institute of Allergy and Infectious Diseases

March 7, 2024 Big Pharma and Its Shills Are Having to Adjust their Covid Fiction to the Facts

With people suddenly dropping dead all over the mRNA-vaccinated world, with oncologists reporting massive increases in cancers, turbo-cancers never previously encountered, with studies documenting menstrual and fertility problems with Covid-vaccinated women, with young children having heart attacks, with a new form of blood clots that look like linguine, with outbreaks of Guillain-Barre syndrome and neurological ailments, myocarditis, pericarditis, spinal cord and brain inflammations, and every other kind of health horror, a controlled narrative explanation is needed.

I read the Paul Craig Roberts article. Yes; the "fact checkers" are all over this. They are definitely earning their bloody money. It's great to know that 20 million people (give or take) dead from the bioweapon injection is a "very rare" occurrence! We don't have to worry; because when it's 100 million - it will still be "rare"...next "booster" shot, please!

**PHARMA: AN INDUSTRY THAT PUTS PROFITS BEFORE PATIENTS?**
https://rumble.com/v1rg6bk-...
The pharmaceutical industry is one of the largest moneymakers in the world, with more than a trillion dollars in profits every year. It's an industry that heavily influences our healthcare system, yet, it only profits when people are sick. Many people don't realize that there's no money made off healthy people.

This society has already collapsed. People just can't see it yet! I expect that they will, by the end of this year. I've notice in the past year or so that in the stores I visit, there is a large turn around in employees. Even in my local music store; most of the employees are new and many of them are often off sick. Coincidence?

Interesting. It's almost impossible to score a job in our area, hundreds apply (on-line of course) for one part-time gig that pays minimum wage. Soon it will be that adding your unjabbed status will give you a better chance since we're more likely to not be sick or die unexpectedly.

If you actually watched the video she says that they found out during the operation that it wasn't cancerous, but that she would be treated with "preventative" chemotherapy. Now that's an oxymoron for you! Like when women have their breasts removed to prevent breast cancer, (eye roll). Big Pharma is licking it's lips now.

This all happened because our federal government is controlled by a cabal of scum. Creatures 'other than human' completely bereft of humanity. And of those who knew the truth and went along, 'you are the same as those who looked the other way while Hitler snuffed out life after life.' We've GOT to clean house at the regulatory agencies and scrutinize the activities of those responsible until they crumble from the pressure. These monsters deserve no mercy for any of this.

And still the health authorities (and the public that still believes them) that the Covid shots are "safe" and "effective" and have saved millions of lives.

To vaccine manufacturers the safe and effective mantra means: the government keeps us safe from prosecution and the shots are very effective at making money.

The name of this game is depopulation! Another article in this issue notes that Moderna is coming out with three more vaccines to make up for the "slump" in Covid jabs. Gee, they might know by now that those of us who knew from the beginning this was a fraud, and those who didn't are disabled or dead! No new customers eager to get on board with this disaster!

**Leon** → Clare Goldsberry
24 days ago
That is why the WHO absolutely wants the IHR amendment to be signed.

This way, wanting it or not everyone will get the new serie of jabs to face the new WHO Made plandemics which will be of their sole authority to be declared so.

And the police forces will follow orders as usual and go door by door " to save us from the looming dangers " with forced injections.

Vaccines obviously. Doctors in the past could go their whole career without seeing a case of cancer prior to the massive vax push. Just like heart attacks were almost never seen until the introduction of seed oils.

Aren't they coming out with a "cancer" vaccine??? Lots of media surrounding that topic. How fitting that everyone is now coming down with something for which there is a new cure. Gotta feed the narrative/brainwash the public some more.

"Round Them Up"? "THINKING"
When do we begin rounding up the **Monsters** that intentionally released this killer upon the world? How much more legal gobbledygook must we endure as the **Eugenicists** profess their fake innocence? Just how gullible are we? **Genocide** was planned and implemented worldwide by second generation Nazis and Globalist Oligarchs! WE ALL KNOW! Who and why. There is no doubt. The **WEF** tells us proudly, everyday, about the plan to **"thin the herd!"** Humanity's response? We continue to graze. Sheep don't respond...apparently.

Sheep spend their entire lives worrying about the Wolfs, that will kill them, and in the end it is the Sheep Herder that kills them!

If the people ever have enough of this, then the most " safe and effective" action to be taken will be a complete yet peaceful strike untill those demociders quit their jobs and be replaced with REAL REPRESENTATIVES and not the actual kind of lobbyists that pretend to be representatives.

The user's manual has already been clearly written.

Why not use it ?

" That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, --That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness."

Besides these cancers, take note of all the folks suddenly developing sepsis, another illness that has become normalized. Jab status should be a part of every conversation of deadly illness or disease yet it's conveniently left out. C+C and the Music Factory said it best: "Things that make you go hmmmm......"
